VPC Asia Pacific in association with Cluttons

Cluttons has set up a strategic alliance and business venture with VPC Asia Pacific, to undertake property consultancy operations across the region.

With 40 offices in major Asian countries - Malaysia, China, Hong Kong, Thailand, India, Singapore, Japan and Indonesia - VPC Asia Pacific in association with Cluttons is an established and well-respected regional grouping of international property consultants employing approximately 450 staff and providing a comprehensive and wide range of property consultancy services and solutions for corporate clients.

VPC Asia Pacific in association with Cluttons offers a wide range of real estate services, drawing on the specialisms and expertise of both partners to deliver an exceptional service to clients in Asia and the UK.

Asia continues to be an attractive proposition for many of our clients while the Asian players demonstrate great leadership through positive recovery measures following the global economic crisis. Asia, including China, India and Indonesia, is expected to have the highest growth rates and we want to play an effective role in enhancing these economies.

Our strategic partnership allows us to promote cross border investments throughout the United Kingdom, Middle East and the Asia Pacific region.

Our association facilitates the exchange of knowledge and specialised skills; helping introduce the Asia Pacific region as a property destination to the United Kingdom and Middle East investors. Similarly, many Asian players, especially property developers, leisure and hospitality operators and manufacturers, are exploring opportunities beyond borders particularly in the Middle East and Europe; and this is where the partnership will help facilitate the process.

We welcome the opportunity to meet with you to discuss how we can better serve your business aspirations in the Far East region.
